PRODUCT CATALOG  
2019 - 20

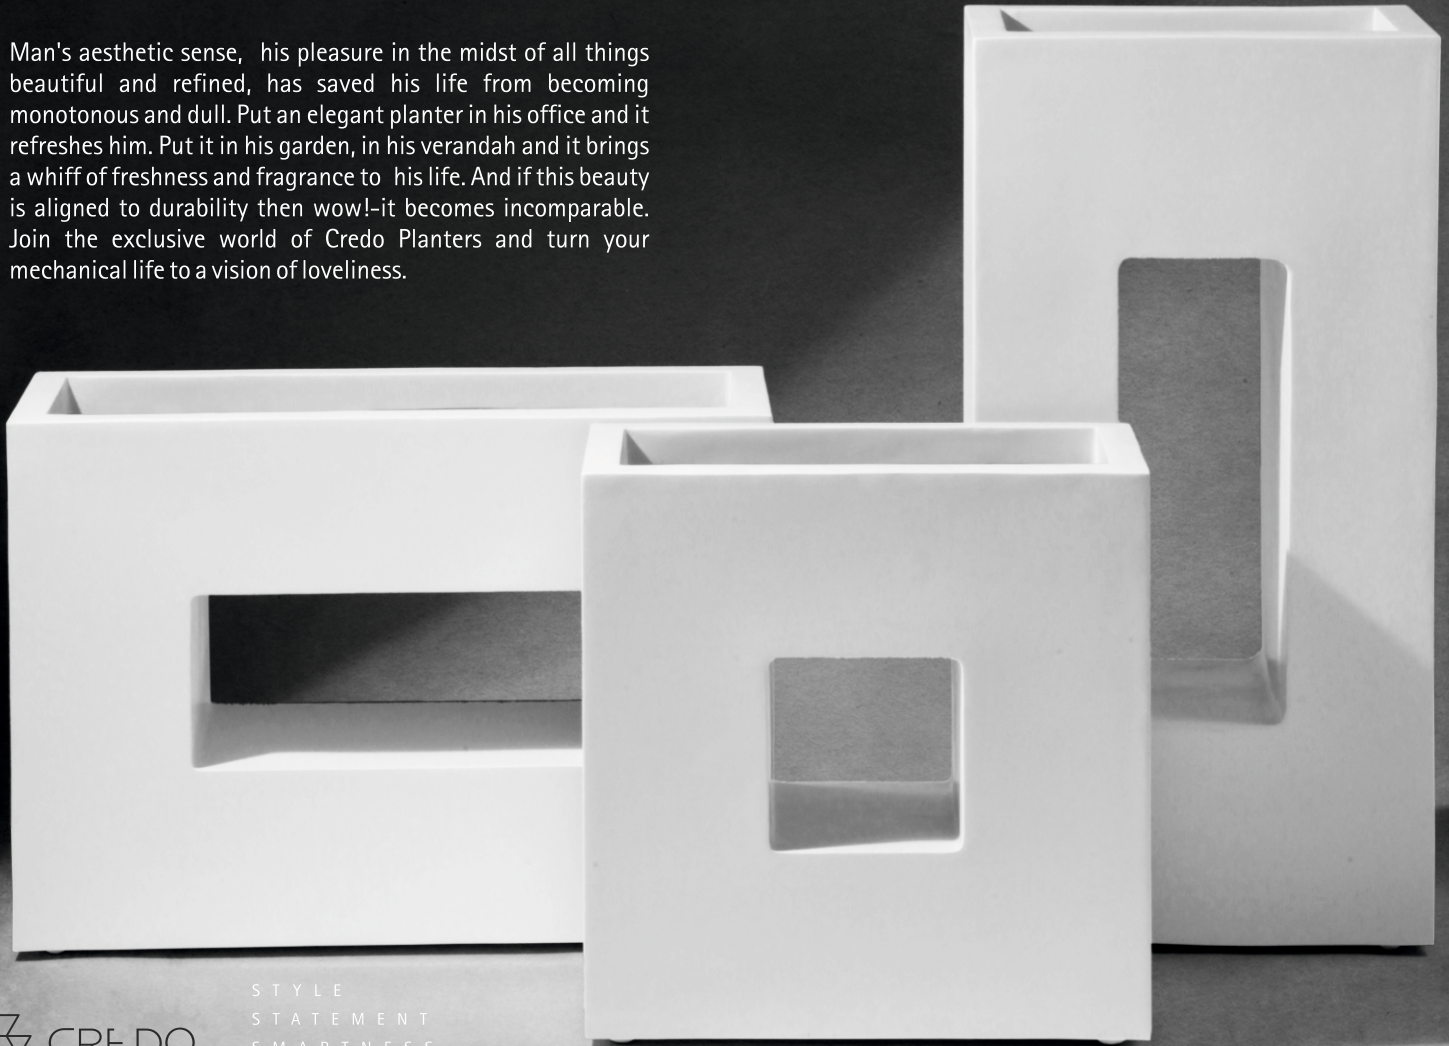

For past many years, Credo have been producing timeless designs for garden planters. In our products, we go back to what is the essence of good design: we aim for impeccable craftsmanship to create sustainable pieces full of character, moulded of high quality fibre glass. Credo planters' designs are authentic, sumptuous and natural. We believe that good design can enhance your physical and emotional wellbeing; providing comfort, tranquillity, visual harmony and order.

Our timeless, stunningly simple collections can be found in the most diverse interiors all over the world, where they only become more beautiful as years go by. Credo has set extremely high standards and, consequently, the quality of its products exceeds industry norms.

Credo believes in innovation and thus is able to develop and manufacture exclusive planters too tailored to specific requirements. Particular attention is given to processing stages, product colouring and final finishings, as well as to quality of materials. The process is quick, flexible and wholly personalized.

For each set of new designs, relevant factors are over again weighted: concept, functionality, emotion, target groups, design, ergonomics, durability, materials, colour, cost efficiency, ecology etc. The right mix leads us to good results. Quality is no accident but rather the sum of correct weights and good decisions taken by our own team of designers and production specialists who work closely with our clients.

Man's aesthetic sense, his pleasure in the midst of all things beautiful and refined, has saved his life from becoming monotonous and dull. Put an elegant planter in his office and it refreshes him. Put it in his garden, in his verandah and it brings a whiff of freshness and fragrance to his life. And if this beauty is aligned to durability then wow!-it becomes incomparable. Join the exclusive world of Credo Planters and turn your mechanical life to a vision of loveliness.

C O R F L U M A E

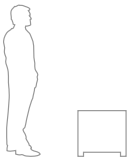

A flute allows wind to pass through and announce the melody. Allowing access to a system requires the presence of a structure. The most rigorous structure is the geometry that doesn't shift. Clear edges prevent blurring. A gust of wind passing through geometric channel produces a metallic tune.

PRODUCT NAME

COR FLUME

\*measurement in inches

MODEL	HEIGHT	UPPER LENGTH	LOWER LENGTH	UPPER BREADTH	LOWER BREADTH	DEPTH
CP 1.2	16	16	16	15	15	9

# STAR PLAR

Ascendance to the stars is not easy. Witnessing the possibility around us is a reminder of the journey – necessary but impossible. To constantly keep the point of transition in mind is a meditative process. Staying in the present, but shuttling between the time past and time yet to come.

PRODUCT NAME

CAV SLI

Towers are pathways into the sky. On connecting with the sky what happens? Expansion, liberation and dispersion all operate in a parallel way. In fact the tower becomes a symbol for hope as well as the boundary of the common and everyday.

# F I B U L E

A long slab of a shallow surface that can collect the passing flux acts to create a puddle. This puddle doesn't offer a depth and offers only minimum refraction. The puddle becomes a link to seeing the world within. Inside the sought and the reward play a game of smoke and mirrors with each other.

## PRODUCT CODE

C O E S C O

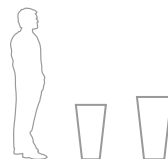

The engraving on the flatness draws attention to itself. This engraving itself is not like a skin, it is like a print. After the ink has seeped into the pores of the surface, the print takes root and becomes a mask. Here, a cone becomes an amplifier. The mouth is narrow, but the belly becomes a reservoir.

# Water System

Credo planters unique water system.

With the view to provide proper plantation and clean surroundings, Credo Planters have come out with a unique water system in which the waste water remains in the planter and can be let out at convenience using the outlet knob provided. This system helps in:

- Lower water consumption
- Keeping the planter light and thus make them easy to shift or transport
- Providing cleanliness in surroundings.

# Colour Range

Credo planters are available in a range of colours and finishes.

Finish	Gloss	Matte	Rough
Color			
Black
